SUMMARY

Passionate about technology and coding since childhood. Math and logic are a strength. Took over 3 years of computer science courses and, most recently, worked on a technological environment, managing, coding, documenting, and testing software. Currently studies Programming to pursue career in the area, with graduation due in January 2023.

Also familiar with the Agile Methodology applied to software development. Believes in continuous improvement and learning. Can communicate in Portuguese, English and French.

WORK EXPERIENCE

Imgnation Studios, game development studio in Santa Maria – RS, Brazil.

Producer, *February 2021 – December 2021 (11 months)*
Managed a 6-people team on a Virtual Reality game project. Performed activities such as sprint planning, game testing, documentation of game features and bugs, quality assurance check-ins and daily meetings.

Project Manager Intern, *August 2020 – January 2021 (6 months)*
Managed a small team during the development phases of hyper casual games for mobile. Planned the schedule, broke it down on sprints and led the team through it. Performed sprint planning and game documentation using software like Microsoft Word, Miro, Notion and Trello. Investigated and proposed means to improve the development of the projects, with positive results and feedbacks from the team.

EDUCATION

DEC Computer Techniques - New Media Programming, *August 2021 - Present*
Institut Grasset, Montréal – QC, Canada.

Currently enrolled on the 2nd semester of the program. School report available if requested.

Bachelor Business Administration, *March 2017 – January 2021 (3 years and 10 months)*
Universidade Federal de Santa Maria (UFSM), Santa Maria – RS, Brazil.

Graduated on time with good grades. Held two consecutive scholarships, in which helped in the development of scientific articles. Was part of a Junior Enterprise, doing consulting projects for over a year.

Computer Science Courses, *March 2013 – November 2016 (3 years and 8 months)*
Universidade Federal de Santa Maria (UFSM), Santa Maria – RS, Brazil.

Took programming classes, participated in a regional marathon, did voluntary tutoring in Programming Laboratory I and II and participated in the Programming Club, teaching logic to high school students.

SKILL SET

Hard Skills

Business bachelor's degree
Broad understanding of programming logic
Programming languages (C, C++, C#)
Image and layout editing (Photoshop)
Agile methodologies (Scrum, Kanban)
Microsoft Office package
Visual Studio (VS), Visual Basic for Applications (VBA) and Unity
Basic GitHub manipulation
Basic VIM manipulation and text editing
Basic scripting (Python)
Windows Operational System
Basic Linux
Typing speed: 66 – 78 wpm

Languages:
Portuguese – Native language
English – Fluent
French – Upper Intermediate (level B2 – CEFR)

Soft Skills

Proactivity
Critical thinking
Adaptability
Organization
Willingness to learn
Effective communication
